

test.txt

```
1 | Hello there
2 | What is going on
3 | 0123456789101112131415161718192021222324252627282930313233343536373839404142434445464748495051525354
   | 5556575859606162636465666768697071727374757677787980
4 | That was over 80 chars easily
5 |
6 | What about a new paragraph?
7 |
8 | 01234567891011121314151617181920212223242526272829303132333435363738394041424344454647484950515
   | 253545556575859606162636465666768697071727374757677787980
9 | That should have split earlier because there was a " "
```

example_code/Interaction.java

```
1 | package socialmedia;
